

**BMD12083 Introduction to Multimedia Technology
Assignment 3**

Lecturer: Behshadjalalian
Email: Behshadjalalian@raffles-university.edu.my

Due Date	: By week 13
Marks	: 100 marks (Weighting: 50 %)
Total SLT	: 15 hours

CLOs:

At the end of the assignment, the student is expected to be able to:

1. Develop your knowledge and understanding of the underlying concepts and theories of the Multimedia System.
2. To outline and critically analyse the different elements of the Multimedia System.
3. Develop student's competence in understanding the concept and developing applications of Multimedia Technology.
4. Provide the necessary details on how multimedia data are represented, stored, compressed and used

Assignment 3 (100 marks):

Student is required to **develop a simple multimedia application**. E.g., interactive magazine, digital storybook, stop motion, video documentary, mini games. Student may choose to do the assignment individually or form a group of 3 students for this assignment.

Task 1: Multimedia Planning

1. **Propose a type of multimedia application** for assignment.
2. Write **a proposal** by covering the following details:
 - a. Project Introduction
 - b. Target Audience
 - c. Technology & Software
 - d. Cost
 - e. Timeline
 - f. Moodboard & References
 - g. Sketches / Storyboard

Task 2: Multimedia Production

1. **Produce the proposed application** according to the Task 1 Planning.
2. **Create a Design Journal** to record the different stages of the productions, including "behind the scene", prototype, and the final product.
3. Ensure the final design is properly design and presentable.

Task 3: Presentation & Delivery

1. Present the Task 1 Proposal and Task 2 Design Journal in PowerPoint format.
2. Present the final design.
3. Submit the Task 1 Proposal, Task 2 Design Journal PowerPoint and the final design files.
4. Reflection (.doc)

A softcopy of the assignment to be prepared and submit on the same day as the presentation.

ASSESSMENT CRITERIA

CLO	Criteria	Poor (0-2 marks) D	Fair (3-5 marks) C	Good (6-8 marks) B	Excellent (9-10 marks) A	Weighting
1	Visual Design: The final design demonstrates quality modern design trend with high aesthetic value.					2
1, 2	Multimedia Authoring: Students able to research and utilize various tools to produce quality multimedia elements.					2
3, 4	Multimedia Elements Quality and Format: Demonstrates capability to utilize various multimedia elements, chosen the right format and compression technique to compliment the final product.					2
2, 3	Design Journal: The design journal reflects consistent design development progress and reasonable time management throughout the development period.					2
1, 4	Creativity: Able to propose out of the box concept Able to expand the visual design in creative manner					1
4	Presentation: Able to present the research finding in confident manner. Able to handle question and answer from the audience.					1
